

Getting results through Ownership at workplace

10 August 2022 02:00 PM - 10 August 2022 05:00 PM

Brief Overview:

The ability to understand and develop your accountability and sense of ownership is an important factor in today's workplace. Knowing the difference between accountability and responsibility; how to task manage and prioritize; react quickly to problem solving and ultimately decision making, as well as creative thinking; how to learn from success and failure; as well as define goals and give powerful feedback for actionable results, will all be key aspects of this course.

This highly interactive training has been designed and developed to provide all of these powerful aspects, and more, as well as key understanding and knowledge around the principles used. The training will also provide delegates with the practical tools to take back immediately into the workplace providing instant and noticeable gains.
