

ESSENTIALS OF “5S” Improving Performance & Productivity

18 August 2023 09:45 AM - 18 August 2023 05:15 PM

Brief Overview:

In the current scenario of Market Competition, In Indian Industries, 5 S is a Workplace organization method, based on Japanese Concepts – applicable for both Office as well as Manufacturing Shop Floor. Simple Steps of Five S's are 'Sort', 'Set In Order', 'Shine', 'Standardize' and 'Sustain'. The 5S' are used to make abnormalities apparent. Five S is a foundation for other improvements because it demonstrates the employee and organizational self-discipline that is required for other continuous improvement tools to be effective.

The 5S program establishes the standards for what belongs, where it belongs, ensures equipment and tools are inspected and ready for use, and constantly root causing and fixing the sources of contamination; it therefore creates a very neat and clean environment. Thereby, it enhances Organisation's Performance & Productivity. 5S methodology has expanded from manufacturing and is now being applied to a wide variety of industries including health care, education, and government
